Unit 1 Worksheet

Exploring the Empire

Use the hyperlinks provided by your teacher to access the map of the British Empire and then investigate each of the historical objects from the British Museum. For each one, identify the object, which of the British colonies on the map it has a connection to, and what that connection is. (For example, a blanket may have been made in Nova Scotia and used by native people that lived there)

Type of Object	Colony Connection	Connection Description
