THROUGH THEIR EYES VIRTUAL MUSEUM TOUR

Students are invited to take a live tour of our Virtual Museum, using the stories and experiences of real people of the Revolutionary Era to make personal connections to major events and smaller moments of the American Revolution. Along the way, they'll tackle key questions about the Revolution and about the world today.

VIRTUAL THEMED EXPERIENCES

Book these engaging live sessions with a member of our Education team to supplement your virtual *Through Their Eyes* experience, or as stand-alone classroom programs. Students will go beyond the galleries to get a new take on the work of museums and the people and events of the American Revolution.

Topics:

Thinking Like a Historian Grades 4 – 12

Historians use objects, documents, and contextual knowledge to build an understanding of the past. In this experience, students will do the same, using their powers of observation and critical thinking skills to explore what objects and documents can tell us about the past.

Two Men and a Mystery Grades 9 – 12

After two paintings by Italian artist Xavier della Gatta were found to show remarkably accurate depictions of the Battles of Paoli and Germantown — battles the artist had not participated in, in a land he had never visited — historians were left with a mystery: How did he know so much about what had happened? As students examine clues from 18th-century artwork and documents, they also will explore the challenges and opportunities of being a soldier — and a survivor — of the Revolutionary War.

WHEN WOMEN LOST THE VOTE VIRTUAL EXPERIENCE

Few people know that for about 30 years during the Revolutionary Era, certain women and free people of African descent had the right to vote in New Jersey. In these live sessions with a Museum Educator, students will use historical objects and primary source documents from the Museum's exhibit, *When Women Lost the Vote*, to explore this revolutionary moment in time and what it can tell us about the importance of suffrage — and its protection — today.

Grades 4-6

Students will explore contributions of Revolutionary women and how some of them sought to take advantage of the opportunities that a new nation could bring.

Grades 7-12

Students will explore how the electorate was often defined at our nation's founding, engage in debate over how the right to vote is distributed, and explore how the right to vote was ultimately taken from women over 100 years before the passage of the 19th Amendment.
