MATERIALS

- Coloring supplies (markers, crayons, colored pencils)
- Scissors
- PDF Print out
- Tape / glue (tape is better)

DIRECTIONS

1. Gather your coloring supplies and apply your creativity to Washington’s War Tent!

2. Cut along the solid black line of the two walls on both sides of the page.

3. Cut out the roof of the tent. Be sure to not cut off the glue tabs.

4. Cut along the dotted line on both sides of the tent roof.

5. Fold the glue section near the dotted line. Bring that fold underneath to create the rounded part of the roof. Repeat on the opposite side. Using tape or glue, attach those round pieces to the interior of the roof.

6. Fold the rest of the glue sections around the tent.

7. Now it’s time to attach all the parts. Locate the middle of the roof and one of the walls. Tape the middle glue section to the interior of the wall.

8. Attach the smaller glue sections to the inside of the walls. Now you have one side of the tent.

9. Repeat on the opposite side.
